An annual dividend is paid out to the shareholders in proportion to the number of the shares they hold. The dividend is determined each year by the General Shareholders' Meeting.

1.8.2 Voting right attached to the Shares

Subject to the exceptional circumstances envisaged in provisions of law, each shareholder holds as many votes as shares fully paid up.

1.8.3 Pre-emptive right

Shareholders have the pre-emptive right to take up new shares, proportionate to the number of shares they hold. This right applies to any transactions to increase the share capital in exchange for a cash contribution, unless such right is excluded following a decision of the General Shareholders' Meeting.

1.8.4 Right to participate in the surplus assets in the case of liquidation

In the case of the liquidation or planned winding up of the Company, the net assets remaining following the repayment of the nominal value of the shares will be divided between the shareholders in proportion to their share in the Company's capital.

1.9 Timetable

The following provisional timetable is currently contemplated for the Offer:

- Information of Beneficiaries about the Acquisition Price: as from 3 September 2024 ;
- Acquisition Period: from 18 September 2024 to 2 October 2024 ;
- Delivery of Shares: 4 December 2024;
- End of the lock-up period: 30 June 2029 (inclusive).

1.10 Subscription process

Beneficiaries will be able to acquire Shares during the Acquisition Period, on the website dedicated for the Offer (www.renaultshareplan.renaultgroup.com).

The Acquisition Price is denominated in EUR and converted into PLN at the exchange rate set by the Company on the date the Acquisition Price is determined and corresponding to the exchange rate of the last day of record of the Reference Price.

1.11 Rules applicable in the case of over-participation and return of the overpaid amounts

The number of Shares that could be delivered to eligible beneficiaries within the framework of the Offer, including those corresponding to Free Shares and Matching Shares, is capped at 2% of the share capital of the Company and any other ceiling in shares and/or in euros that may be set by the CEO of the company acting upon delegation from the Board of Directors (the "Ceilings"). In the event that the number of actions requested by Beneficiaries during the Acquisition Period exceeds at least one of the two Ceilings, a reduction of the participation request will be made to reach the exceeded Ceiling(s), in accordance with the following methods:

- If the number of shares to be granted to serve net Free Shares is greater than the Ceiling, the number of shares corresponding to Beneficiaries' personal contributions and, correspondingly, shares resulting from Matching Shares, would be reduced to zero (0).

A reduction in the number of shares to be served for net Free Shares would then be implemented as follows: the number of shares corresponding to net Free Shares will be fully allocated to eligible beneficiaries up to a number of shares equal to the total number of shares offered from net Free Shares divided by the number of Beneficiaries eligible to Free Shares (the "**Grant Average**"). This Grant Average will be rounded down to the next number of shares only for Beneficiaries of the Offer in countries where shares are held directly. Beneficiaries eligible for a number of shares from net Free Shares exceeding the Grant Average will be allocated a number of shares proportional to the amount of their net Free Shares, depending on shares remaining to be granted to reach the Ceiling.

- If the number of shares to be granted to serve net Free Shares is inferior to the Ceiling, shares corresponding to net Free Shares will be allocated to Beneficiaries in totality.

A reduction would then be applied to shares requested by Beneficiaries' personal contribution and, correspondingly, to shares resulting from Matching Shares. Thus, acquisition requests will be fully served up to a number of shares equal to the quotient of the total number of shares offered under the Offer, previously reduced by the number of shares fully allocated from net Free Shares, by the number of Beneficiaries who have made a personal contribution in the Offer (the "**Subscription Average**"). This Subscription Average will be rounded down to the next number of shares only for Beneficiaries of the Offer in countries where shares are held directly. Requests from Beneficiaries by personal contribution exceeding the Subscription Average will then be served in proportion to the number of shares they have been requested, depending on shares remaining to be allocated to reach the Ceiling, once shares from Free Shares have been fully granted.

If various payment methods are offered for payment of Beneficiaries' personal contribution, the reduction would be first applied against payment via potential wire transfer or direct bank debit, then on payment via payroll deductions. The amount effectively paid will correspond to the amount after applying the reduction.

1.12 Circumstances in which the offering may not be successful or the issuer may withdraw from it

The Company may decide, at its discretion and for any reason whatsoever, not to conduct the Offer, if it decides that it is not in the interest of the employees, at any time until 4 December 2024. If such a situation occurs, Beneficiaries will be promptly informed of this. If the Company decides not to conduct the Offer after the date on which the funds for participation have been collected, the funds will be returned to Beneficiaries.
